

The **American Friends of the Hebrew University** and the **New York-Israel Chamber of Commerce** are pleased to invite you to a **NexusTalks** event:

Coronavirus, Cancer, & Molecules: Harnessing Biology to Create a Healthier World

Tuesday, February 25th at 12:00 PM
Hosted by Loeb and Loeb (Lloyd Rothenberg)
Lunch will be served

This timely and compelling lunchtime conversation will explore the next generation of biological breakthroughs and what they can tell us about the Coronavirus outbreak, new cancer treatments, and other innovations across the life sciences sector.

Space is limited, so secure your spot today by emailing info@nexusisrael.org or click
